**This price list cancels and replaces the previous price lists
with limited validity due to the problems of availability of raw
materials and the continuous increase in costs**

GENERAL CONDITIONS OF SALES

- 01) The goods, even if sold free delivery, travel at the buyer's own risk.
- 02) Orders are considered accepted subject to approval by the House.
- 03) The delivery terms are not valid without any commitment from the Seller, which assumes no responsibility in case of any delays.
- 04) Any complaints about defective goods, or not corresponding to the required quality, must be notified in writing within eight days of receipt; however, any returns of goods must always be authorized in advance in writing by the Supplier and made free delivery.
- 05) In the event of late payment, interest will be charged based on current bank interest.
- 06) For payments made by bank receipt, there is a bank charge of 2.50 euros.
- 07) The price of the packaging is included in the price of the product. For special packaging, they will be charged at cost.
- 08) The prices in this list may be changed at any time, even without prior notice. In any case, the conditions of the previous list automatically decay with the entry into force of a new list.
- 09) We do not accept orders for quantities below our standard packaging and for total unit amounts of less than 300.00 Euro (three hundred).
- 10) Shipping: the goods are intended ex-works, if free delivery, cost charged in the invoice.
- 11) For any dispute the jurisdiction is exclusively the Court of Bergamo

352EXTREME

TRAPEZIUM PADS FOR DA POLISHERS

ROUNDED PADS FOR ROTARY POLISHERS

Balanced Virtus pads for High Productivity. OEM / Industrial application, Detailing, Bodyshop and Marine sector.

• ONE STEP COMPOUNDING GREY
Grey Foam Pad removes P1200 scratches and finishes to high gloss in one step by DA Orbital/Rotary polisher.

• ONE STEP COMPOUNDING WHITE
White Foam Pad removes P1500 scratches and finishes to high gloss in one step by DA Orbital/Rotary polisher.

• ONE STEP COMPOUNDING BROWN
Brown Foam Pad removes P1500 scratches and finishes to high gloss in one step by DA Orbital/Rotary polisher.

• ONE STEP COMPOUNDING BLUE
Blue Foam Pad removes P1500 scratches and finishes to high gloss in one step by DA Orbital/Rotary polisher.

Balanced density material resists to rotary and DA orbital polishers.

ROUND AND TRAPEZIUM PROFILE
Round profile to use by rotary polisher and trapezium profile to use by DA orbital polisher.

• EXTREME PADS APPEARANCE
Distinctive color for easy identification:
Grey: Heavy Cutting
White: Heavy Cut & Polish
Brown: Cut & Polish
Blue: Cut & Finishing
Orange: Cut & Finishing (Only trapezium)
Yellow: Polishing
Black: Super finishing

347

HIGHEST QUALITY PADS FOR ORBITAL AND ROTARY POLISHING MACHINES

Balanced pads for ROTARY and ORBITAL polishers. Low temperature polishing.

347 POLISHING PAD Gray

Super abrasive pad Gray
It is a heat resistant super abrasive pad. These pads work great for removing deep blemishes, but they also work great for polishing on very hard clear varnishes.

347 ORANGE POLISHING PAD

Orange Abrasive Pad
It has been a favorite for years. This pad works great for low temperature abrasive cutting, but can be used as a polishing pad in warmer temperatures.

347 POLISHING PAD White

White Polishing Pad: This is a staple for polishing and leaves a perfect finish on many paints. The partially closed cell construction helps to "crush" or "sandwich" the abrasive on the surface to maximize the result.

347 POLISHING PAD Black

Black polishing pad: is the perfect solution for any finishing job, even on the softest and most delicate paints. The silky feel combined with the slightly denser body create a perfect combination for the final shine.

347 RED POLISHING PAD

Red Polishing Pad: This is softer than 347 Black but has a slightly larger cell structure for better residue control when using ONE STEP products.

998 HONER

WET ABRASIVE DISC 998 HOOK & LOOP

DISC Ø 6" No Holes

DISC Ø 3" No Holes

The VIRTUS HONER pyramid-shaped abrasive sponge disc with PIRACUT technology P3000/ P5000 is ideal for removing paint defects before polishing, leaving a very homogeneous and easy-to-polish surface. Box of 15 discs

- Used to eliminate paint defects before polishing
- Follow with 487 Extreme and brown foam pad for ONE STEP cycle
- Follow, if necessary, with 472 Hologram Free and black microfiber pad for a pure and deep color
- Reduces polishing time while increasing productivity
